IZLET V GORIŠKA BRDA

Ljubljansko društvo GIG je organiziralo v soboto, 12.10.1974 prijeten zabavno po-učen izlet v Goriška brda. Kljub slabemu vremenu se nas je v Ljubljani zbralo za avtobusa od najmlajših (bodočih) do najstrarejših (upokojenih) geodetov. V Goriči so nas dočakali naši kolegi, ki so tudi sicer prevzeli na sebe velik del organizacije izleta in nas povedli v Brda.

Ogledali smo si rojstno hišo in grob pesnika Alojza Gradnika v Medani, privatni muzej uniform, orožja in opreme iz 1. in 2.svetovne vojne in pa ogromno vinsko klet in proizvodne prostore kmetijske zadruge v Brdih v Dobrovem.

Slednjič smo se znašli pri naši sodelavki, ki je doma v Brdih, njeni domači pa so nas postregli s pristno domačo kapljico. V izvrstnem razpoloženju smo se med seboj in s tovariši z Goriškega dodobra spoznali.

Za uspeli izlet se moramo posebno zahvaliti našemu kolegu Miletu Gostiču, ki je poskrbel za dobro voljo prav do povratka v Novo Gorico in Ljubljano.

Tone Lesar

O S E B N E V E S T I

Na fakulteti za arhitekturo, gradbeništvo in geodezijo v Ljubljani je 18. oktobra 1974 doktoriral magister Florjan Vodopivec. Z nalogo "Določitev najbolj ustreznih formul za oceno natančnosti mestnih nivelmanskih mrež na podlagi merjenj Ljubljane" si je pridobil naziv "doktor tehničnih znanosti".

Društvo geodetskih inženirjev in geometrov Slovenije mu iskreno čestita!
